Office Action Summary

Art Unit: 1761

Upon reconsideration and further review of the application and new claims, the following restriction requirement is made:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 32-46, drawn to a device for supporting a boneless cut of seafood, classified in class 229, subclass 100 plus.
- II. Claims 47 and 48, drawn to a process to support seafood, classified in class 426, subclass 396.

The inventions are distinct, each from the other because:

The device as claimed in Group I can be used in methods other than that recited in Group II. For example, the device of Group I is a support and could be used to support or shield or protect any product edible or inedible.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art requiring separate searches as shown by their different classification, restriction for examination purposes is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication from the examiner should be directed to Steven Weinstein whose telephone number is 703-308-0650. The examiner can generally be reached on Monday-Friday 7:00am to 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on 703-308-3959. The fax phone numbers for
